
Title: Agapite Mace

Author: The Sage

This Agapite mace was one of the very first ones created on the Atlantic shard, it is a Suaron original. Sauron was the first man on the shard to recieve the Agapite runic hammer, and

a man by the name of Richard purchased this mace crafted from the hammer. This mace has seen much action through out the course of the worlds shakey history, now stained in

blood, it lies in my posession until the once and future hero of the lands returns. This mace has been the bane of Moonglows enemies since its creation, Singlehandedly giving Richard the ability

to destroy many enemies at a single time combined with his already commendable skills. I have seen only one defeat against Richard when he wielded this mace, it was by the hands of Cyrus

the Holy of the Stormguards at the S*G vs MTC Human Chess match.

I met Richard 4 or 5
years ago as of the
writing of this book,

Phoenix, Richard and I
were an unstoppable trio
in that day, and we all
became close friends.
Always by each others
sides, defending each
other, fighting for each
other, and always willing

to make the ultimate
sacrifice for each other
if needed. Whoever
reads this, Know that
Richard was the epitome
of friendship and
companionship, as well as
one of the best fighters

in the world.
